

CAPPELLA HOMES

CAPPELLA HOMES, INC. BRINGS
YOUR IDEAL HOME TO LIFE.

WHETHER BY REMODELING AN
EXISTING HOME OR STARTING
WITH A BLANK SLATE TO DESIGN
AND BUILD A NEW HOME, WE
ARE IN BUSINESS TO HELP MAKE
YOUR DREAM HOME A REALITY.

WHO WE ARE

Cappella Homes, Inc. is a family owned and operated construction company that brings professional management and quality workmanship to all projects.

Whether we're building your dream home or updating a kitchen, we employ the same proven practices and procedures on all of our projects. We listen and take the time to communicate with our clients individually, building relationships that last well into the warranty period and in many cases, provide us recommendations to customers' friends, family and associates.

WHAT WE DO

Cappella Homes, Inc. builds new custom homes, remodels existing homes through addition or renovation, and improves the livability of homes through creating built-in solutions for maximum space management.

WHY WE ARE DIFFERENT

Cappella Homes builds to our own standards – a step above the rest of the industry. Beauty is in the details and we pay attention to the details.

Our customers interact with Mr. Barry Bransford owner of Cappella Homes, as he manages the construction process and contractors that work on Cappella Homes projects. We also have our own wood shop where we create many of the built-in features that are incorporated into our projects. Cappella Homes, Inc. is not your average home builder or remodeler.

Make your home A Cappella.
